

## IMPORTINOX transfers fasteners range to FABORY

27 January, 2022

Dear Supplier,

IMPORTINOX hereby informs its suppliers of fasteners and similar products that it has reached an agreement with the FABORY GROUP, one of the main and most prestigious European groups related to fastener market, **to integrate its fastener division in FABORY PORTUGAL [www.fabory.com](http://www.fabory.com).**

As **from the 31/1/2022**, inclusive, IMPORTINOX will stop issuing orders to its suppliers of fasteners and requests those who may still have orders from us pending, to continue processing them in order to comply with the agreed lead time and to transfer them to FABORY PORTUGAL, under the same conditions as agreed with us. You shall only issue an invoice on behalf of FABORY if you receive a new order by the time of dispatch of the goods. **In case you do not accept this passage, please inform us as soon as possible.**

Naturally, all open values in your current account will be settled by IMPORTINOX, within the usual deadlines, as we have always done.

For FABORY PORTUGAL this acquisition will allow us to provide a stronger and more relevant offer to our customers and to establish closer partnerships with our suppliers, **offering a wide range of 180,000 fastener items, customized stock management solutions, quality and engineering.**

**IMPORTINOX will continue with the distribution of other products** it already provides, namely **perforated plate, grating, expanded metal and other metallic products that do not belong to the fastener range.**

We can only acknowledge with appreciation all the collaboration with which we have been privileged to receive for over the last three decades and wish you all much success. Should you have any questions about this transition process, please contact us through the usual channels of Importinox or through the email [pedro.marques@fabory.com](mailto:pedro.marques@fabory.com).

With best regards,

The management of IMPORTINOX,

*Joaquim Polónia*

*Catarina Cerejeira*
